Register new user: SOLVED with reason WEB:DE

Environment: LOCALHOST

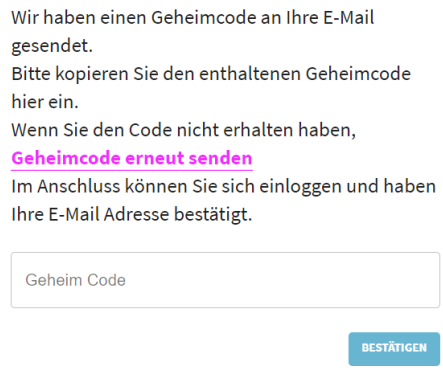
Sending the secret code for registration is not working from local environment (due to xcross origin I think)

Environment: ONLINE – DIGITAL OCEAN BUILD

Sending the secret code for registration is not working – no email is delivered

No email is delivered also with RESEND BUTTON

Happens in most times => sometimes the mail is sent!



ORDER delivery times

Current issue:

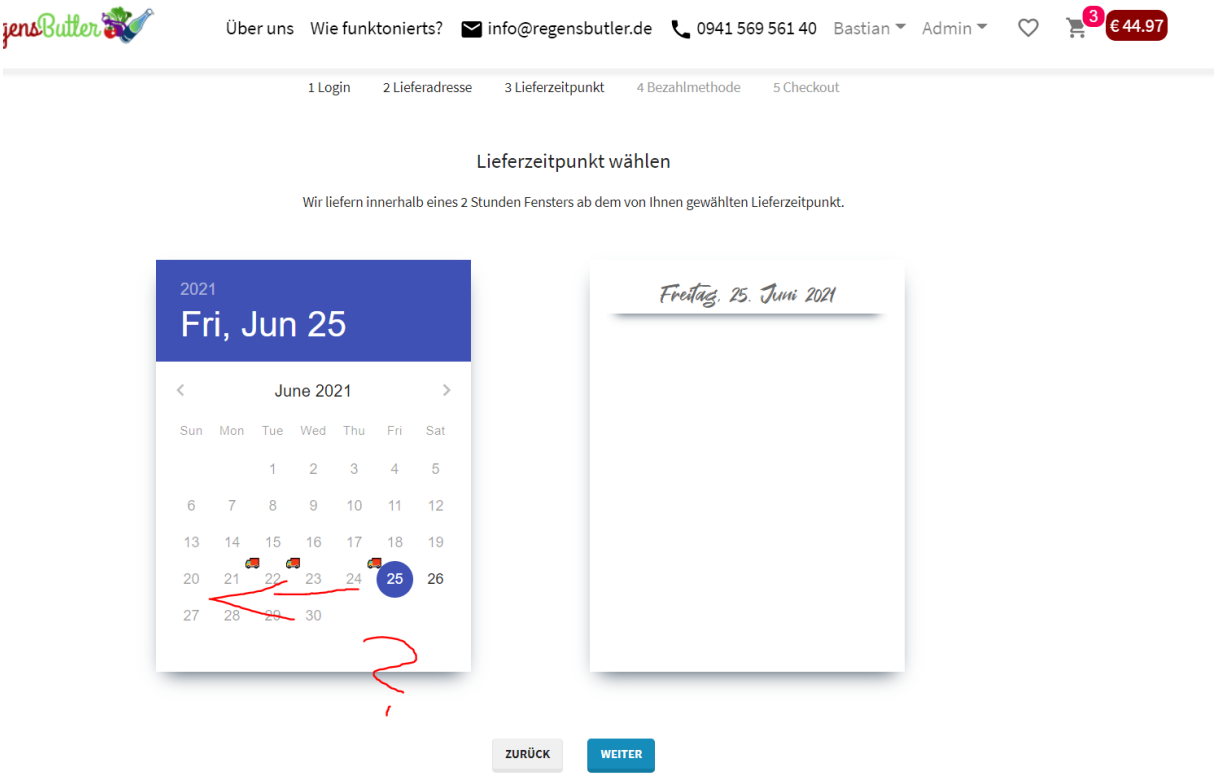
Setup in the past or only for today

User needs to:

User cannot order for days in the future (only current day and past)

What if I want to order for tomorrow

At least 1 week should be possible



Frequently Orders

Min order: 30 € > also like in normal order

Free shipping from 90 € > also like in normal order

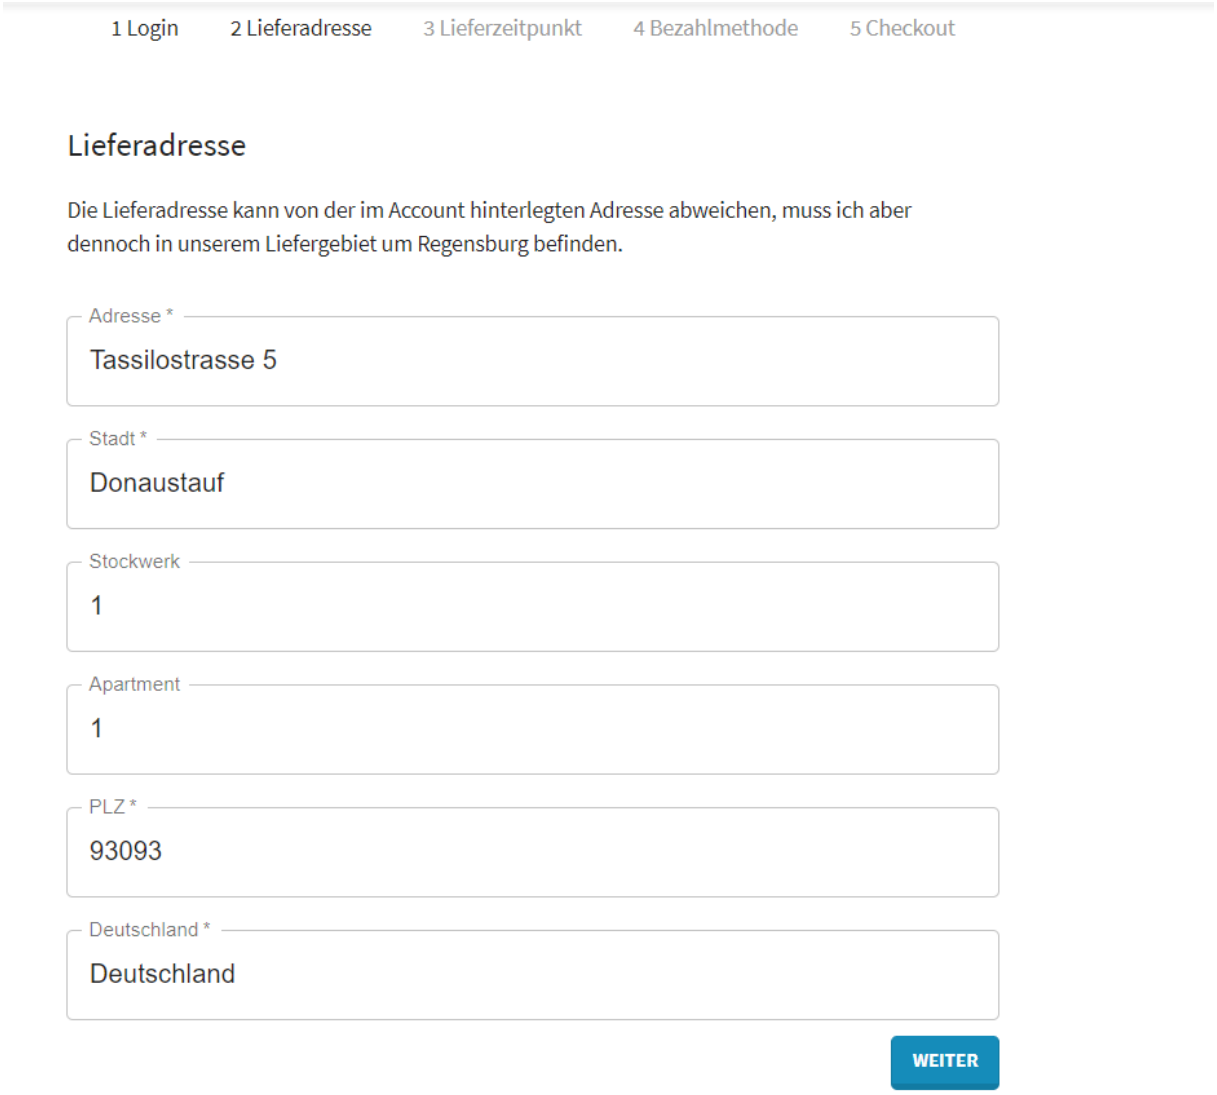
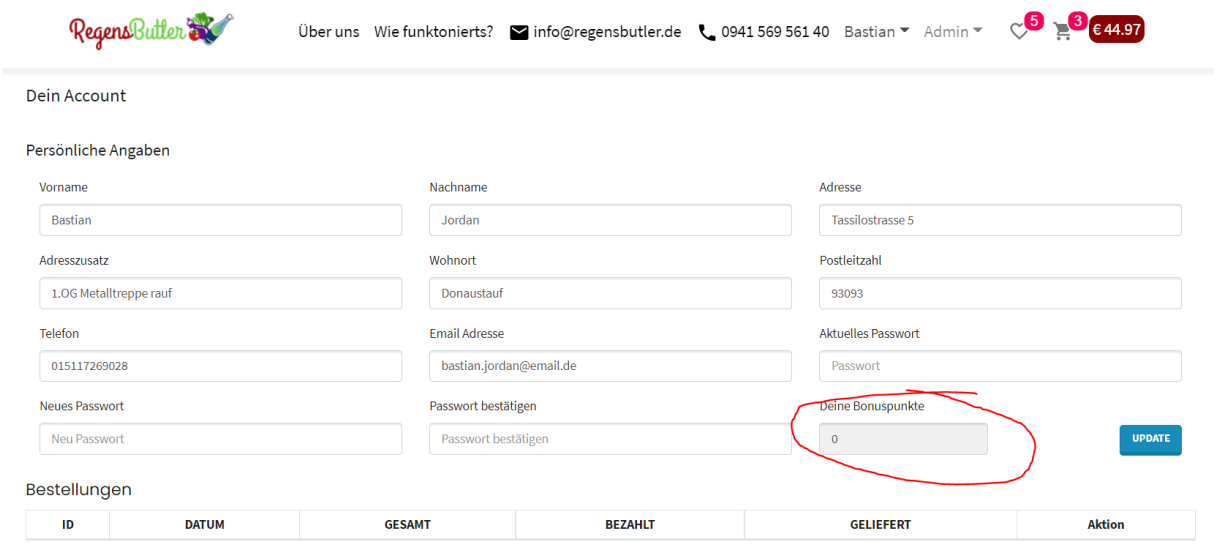
FEEDBACK: => material-ui: well done



BONUS SCORE



Bonus score == 1% of total price (if order price is 100€ => bonus score will be 1€)

1€ == 100 bonus points

Max useable bonus score in order if available: 2,50 € == 250 bonus points

So the user needs to have a option where he can use his bonus score before with checkout.
